Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/21/07 and the Supplemental response filed 5/30/07 have been entered.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Both amendments (filed 5/21/07 and 5/30/07) have been entered. Amended claims 1-7 and new claims 10-11 have been examined.

The applicants amended the claims to incorporate additional limitations discussed during interview.

The referenced amendments obviated the rejections made in the previous Office action.

US 5,720,064; 2004/0148709 and 2005/0015891 are cited to show the state of the prior art with respect to controlling washing machines using measurements of the laundry amounts.

US 2004/0148709 is considered to be the closest prior art. This document teaches detecting dry and wet laundry amount and further teach sensing wet laundry amount a number of times periodically during the wash cycle. The document, however,

fails to teach or fairly suggest steps of calculating differentials and comparing differentials as claimed. The document also fails to suggest additional steps of the claimed method utilizing and/or following the referenced calculating and comparing steps. The document is concerned about control of an abnormal open state of the door during the wash cycle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
